PEDRO MENDES

I have two year's experience in the IT market, working with technical support for operating systems, and basic administrative tasks, and four months as an economic analyst, also working with data science. I was a researcher in the university's scientific initiation program, and I am currently in the 12th period of Sciences and Humanities and the 7th period of the Economics. My interests are econometrics, economic modeling, applied microeconomics, machine learning, Linux systems, and programming in R, Python, Shell Script and Emacs.

EDUCATION

2023 | 2018

Federal University of ABC
Bachelor in Economics — São Bernardo do Campo, SP

2022 | 2018

Federal University of ABC
Bachelor in Sciences and Humanities — São Bernardo do Campo, SP

Telecommunications — São Paulo, SP

RESEARCH

2021 | 2020

Scientific Initiation Program (PIC-UFABC)
CECS - UFABC — São Bernardo do Campo, SP

- I researched brazilian and the Central-West exports, as well as the commodity cycle of the 2000s and its relationship with the region's agro-industrial complex. To do this, I used data from Comex Stats and analyzed data using R.
