PEDRO MENDES

I have two year's experience in the IT market, working as technical support for operating systems while doing basic administrative tasks; and four months' experience as an economic analyst, also working with data science. I was a research assistant at UFABC's scientific initiation program, currently enrolled in the 12th period in Sciences and Humanities and the 7th period in the Economics' bachelor's degree programs. My interests are econometrics, machine learning, Linux systems, and programming in R, Python, Shell Script and Emacs.

EDUCATION

2023 | 2018

Federal University of ABC
Bachelor in Economics — São Bernardo do Campo, SP

2022 | 2018

Federal University of ABC
Bachelor in Sciences and Humanities — São Bernardo do Campo, SP

Fatec São Caetano do Sul
Information Security (Unfinished) — São Caetano do Sul, SP

2014 | 2012

Senai Roberto Simonsen
Telecommunications — São Paulo, SP

RESEARCH

2021 | 2020

Scientific Initiation Program (PIC-UFABC)
CECS - UFABC — São Bernardo do Campo, SP

- I researched Brazil's Central-West region exports, as well as the 2000s commodity cycle and its relationship with the region's agro-industrial complex. To do this, I used data from Comex Stats and did analysis in R.

WORK EXPERICENCE

Now | 2022

Economic analyst
Abramge — São Paulo, SP

- Data processing and package creation in R, creation and maintenance of SQL databases, analysis and interpretation of public data from the private health sector, creation of reports and dashboards using the Shiny package, and creation of statistical models.
